About APF

Advanced Pharmaceutical Factory (APF) is an institution based on 25 years of manufacturing excellence and achievement. We produce a wide range of healthcare products including Injectable fluids and Pharmaceuticals, Cosmetics and skin-care products, and Medical solutions all based in Riyadh City Saudi Arabia under GMP Certification by the SFDA. APF is Research-driven, while aiming to provide the best quality products and services to our valued customers.

Mission

Our Mission is to provide quality products where ever they are needed.

Vision

We aim to be a leading Pharmaceutical Company in Mena Region and provide life saving products to our costomers.

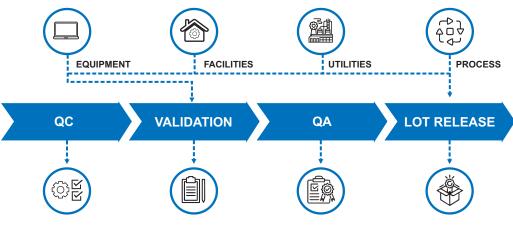

Quality Control

All of our products undergo extensive R&D and stringent quality control tests as per international norms. Testing is performed by highly qualified, well-trained and experienced analytical chemists for achieving the best in quality control. All the major stages of manufacturing process is validated to ascertain that every product we manufacture is maintaining quality standards of international levels and requirements.

CONTROL

Production Capacity

To provide for the ever-growing demand of the market, we operate our facility 365 days a year , 24 hours daily. Furthermore , we developed enhanced manufacturing methods to reach efficiencies required for the healthcare sector. We have 3 areas of manufacturing as follows:

Production Facility Equipments

Research and Development (R&D)

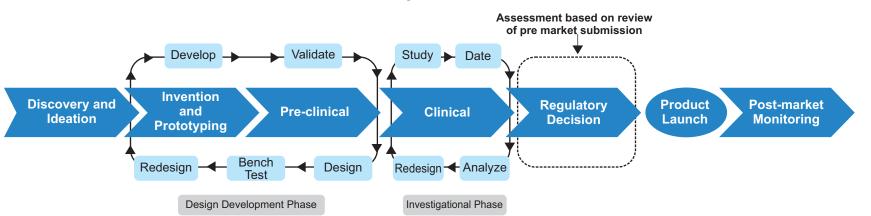

Research and development (R&D) include activities that undertaken to innovate and introduce new products and services. It is often the first stage in the development process. The goal is typically to take new products and services to market. At APF, We have a highly skilled R&D team that works in coordination with the business development department to develop production scale solution

Research And Development

Clinical & Testing

Product Development Process

Contract Manufacturing Services Program

Together with a worldwide network of partners, we offer an individual support in the area of contract manufacturing. Whether looking for standardized or customer-specific product & solutions that are to be partially or completely outsourced, we work closely together to develop needs-based solutions for a wide variety of demands.
